Sleep, Rest, Relaxation and Clothing Policy

NQS

QA2	2.1.1	Wellbeing and comfort - Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's need for sleep, rest and relaxation.
-----	-------	---

National Regulations

Regs	81	Sleep and Rest
------	----	----------------

EYLF

LO3	Children take increasing responsibility for their own health and wellbeing
	<ul style="list-style-type: none">• Children recognise and communicate their bodily needs (for example, thirst, hunger, rest, comfort, physical activity).• Educators consider the pace of the day within the context of the community.• Educators provide a range of active and restful experiences throughout the day and support children to make appropriate decisions regarding participation.

Aim

Our Service aims to meet each child's needs for sleep, rest and relaxation in a safe and caring manner that takes into consideration the preferences and practices of each child's family.

Related Policies

Medical Conditions Policy

Physical Environment Policy

Implementation

Most children benefit from periods of rest which help them grow and ensures their learning and development. Our service implements rest periods which are consistent with the developmental needs of children, including a short period of rest each day for older children. The Nominated Supervisor will ensure:

Sleep, Rest, Relaxation and Clothing Policy

- there is a quiet and restful environment for sleep and rest that enables educators to see, hear and closely monitor children
- there are comfortable spaces for children to engage in quiet experiences
- educator to child ratios are maintained at all times children are sleeping and resting
- a copy of this policy is provided to parents during enrolment and that information about safe sleeping practices for babies and toddlers (e.g. from Sids and Kids) are displayed on noticeboards or in our parent library

The Nominated Supervisor will ensure educators, staff and volunteers:

- accommodate each child's and family's preferences for rest, sleep and clothing to the extent they are consistent with our policies and requirements. This includes preferences related to a child's social and cultural heritage. In line with the principles and objectives of the National Law, if a resting child falls asleep without assistance in instances where families have requested the child not have naps, educators may allow the child to sleep for a period they believe is in the best interests of the child's health and wellbeing
- follow the procedures in this policy which are based on recommendations from SIDS and Kids. If a child has a medical condition which prevents educators from following these procedures, for example a condition which prevents a child from being placed on their back, an alternative resting practice must be authorised by a registered medical practitioner in writing. This should be part of a child's Medical Management Plan
- communicate daily with parents about their child's sleep and rest routines at the service and at home
- regularly monitor all children who are sleeping with specific attention to breathing patterns, and monitor all babies every 10 minutes
- monitor the temperature of the rest environment to ensure it is comfortable without becoming too hot or cold
- help children learn about their needs for rest and comfort and where appropriate negotiate the need for sleep and rest with children. Children will be encouraged to communicate their needs where possible and to make appropriate decisions
- provide children who do not require sleep or rest with quiet, meaningful activities
- support children who need rest and relaxation outside our designated "rest time"
- group children in a way that minimises overcrowding
- comfort children when required. We discourage rocking children to sleep so that children do not come to expect this from their families at home
- respect the privacy needs of each child when dressing and undressing

Safe resting practices for babies (birth to 3 years) N/A St Thomas School and Preschool

Educators, staff and volunteers will:

- place babies and toddlers on their back to rest (unless a medical practitioner has authorised an alternative resting practice due to a medical condition)
- allow older babies and toddlers to find their own sleeping position if they move after being placed on their back to rest
- ensure a child's face is never covered with bed linen while they are sleeping
- use light bedding as the preferred option, and tuck all bedding in to prevent child from pulling it over their head. Sleeping bags with a fitted neck and arm holes (and no hood) may also be used instead of bed linen
- **not** use quilts, doonas, pillows, soft toys, lamb's wool or cot bumpers
- place baby or toddler (if using cot) so their feet are close to the bottom end of the cot and they cannot wriggle under the bed linen N/A
- place children in cots without bottles (for safety and dental hygiene reasons) N/A
- remove bibs before putting child down to rest or sleep N/A
- play calm, relaxing music
- provide dummies if required without attaching them to chains N/A

Safe resting practices for preschool children (3-5yrs)

Educators, staff and volunteers will:

- place preschool children on their back to rest (or ask them to lay on their back to rest)
- allow preschool children to find their own sleeping position if they move while sleeping or after lying on their back initially
- ensure a preschool child's face is never covered with bed linen while they are sleeping
- use light bedding as the preferred option
- play calm, relaxing music

Cots N/A

All cots must meet Australian Standards and be labelled AS/NZS 2172:2010 or AS/NZS 2195:2010 (folding cots).

- Cot mattresses should be in good condition, clean, firm, flat and must fit the cot base with no more than a 20mm gap between the mattress and the sides of the cot
- The distance between slats must be at least 50 mm
- For cots in the lowest base position the distance between the top of the mattress base and the top edge of the lowest cot side or end must be a minimum of:
 - 600 mm when the access is closed
 - 250 mm when the access is open
- For cots in the upper base position the distance between the top of the mattress base and the top edge of the lowest cot side or end must be a minimum of:
 - 400 mm when the access is closed
 - 250 mm when the access is open

Refer www.productsafety.gov.au for more information.

Safety Checks: Beds, Cots, Environment

The service will conduct a safety check of the resting environments, equipment and/or aids by following the Cot and Sleep Safety Checklist.

Prams and strollers will not be used for children to sleep or rest in.

Hygiene practices N/A

The Nominated Supervisor and educators will ensure:

- cots and mattress protective covers are cleaned with soap and water daily and when visibly soiled
- cleaning schedules are displayed in rooms (Refer to Physical Environment Policy)
- each child has their own bed linen which is washed every week following their last day at the service

If a child soils a cot or mattress educators, staff and volunteers will:

- wash hands and put on gloves
- clean the child
- remove gloves
- dress the child
- wash child's hands and their hands
- put on gloves
- clean the cot
 - remove the bulk of the soiling or spill with absorbent paper towels
 - place the soiled linen in a plastic-lined, lidded laundry bin
 - clean cot thoroughly with detergent and water
 - disinfect if there was potentially infectious material
 - remove gloves and wash hands
 - provide clean linen for the cot

Children's Clothing

Children should wear clothing that is comfortable, suitable for the weather, allows them to explore and play freely, and minimises the risk of injury – young children can, for example, be strangled or choked by items of clothing or jewellery. Educators may remove jewellery and teething necklaces if children wear them to the service.

Educators, staff and volunteers will encourage parents to dress their children in clothes (or provide clothes) that:

- are loose and cool in summer to prevent overheating and warm enough for cold weather including outdoor play in winter
- protect them from the sun during outdoor play in line with our Sun Protection Policy
- do not restrict children's comfort or compromise their safety when sleeping and resting e.g. babies and toddlers should not rest or sleep in clothes with hoods, cords, ties, ribbons or crocheted jackets that can pull tight around their neck
- do not compromise their safety during activities – clothes with cords, strings or hoods may catch on equipment and furniture for example
- allow easy access for toileting e.g. elasticised trousers, track pants – rather than buttons, zips, belts etc.

- can get dirty when children play and engage in activities. Children should not come dressed in their best clothes
- include appropriate footwear so children can play comfortably and safely. Thongs, clogs or backless shoes have a trip factor and compromise children's safety when playing and using equipment
- are clearly labelled with the child's name.

Educators, staff and volunteers will:

- ensure children are protected from the sun during outdoor activities in line with the Sun Protection Policy
- monitor children to ensure they are appropriately dressed for all weather, play experiences, rest and sleep routines
- provide clean and appropriate spare clothing to children if needed
- encourage children to use aprons for messy play and art experiences to protect their clothing

Amber Teething Necklaces and Bracelets N/A

Based on Australian Government product safety warnings, we do not allow children to wear amber teething necklaces or bracelets at our service. This is to minimise the risk they may choke on the beads if the necklaces or bracelets break apart.
